

Hose Reel

Model HR2250

Features:

- The reel's primary purpose is to dispense or collect fluid circulation hose on job sites.
- Available with 375' foot 3/4" I.D. hose packages.
- Independent modular design offers the following advantages over built-in reels; You have the choice of storing the hose reel at a secure location on or off the job site when not in use. Allows deployment of hose at more than one job site.
