## Self Dumping Hopper

### Why Buy the OCF Self Dumping Hopper?

The multi-purpose dumpster is **safe, durable, reliable, efficient, and easy to operate.**

They are designed for forklift handling, safe dumping, and to tip forward far enough for complete release of contents.

They can be dumped by simply releasing a small safety latch before lifting the bigger lever attached to the base at the back.

Ten and seven gauge construction and strategically placed supports will ensure years of use in all types of conditions.

They are scientifically designed to have an exact centre of gravity to allow full forward motion and full return to lock mode.

- Available in any size
- Can be ordered with:
  - hinged lids and castors
- Powder coated
- Excellent trash receptacle
- For wet or dry use
- Easy to keep clean
- Well balanced
- Ideal for handling:
  - Heavy scrap metal
  - Wood and metal chips
  - Organic waste
  - Recyclable products
- Different sizes make outdoor and indoor use possible.
- Safety lock prevents accidental dumping
- Safety chain keeps the dumpster safely on the forklift
