

MySite

The Leader In Remote Monitoring Solutions

All-In-One Wireless Monitoring Solutions

Operating a business efficiently, yet cost effectively is challenging. There's plenty to worry about without having to expend precious (and costly) human resources to manually monitor things that could be automated.

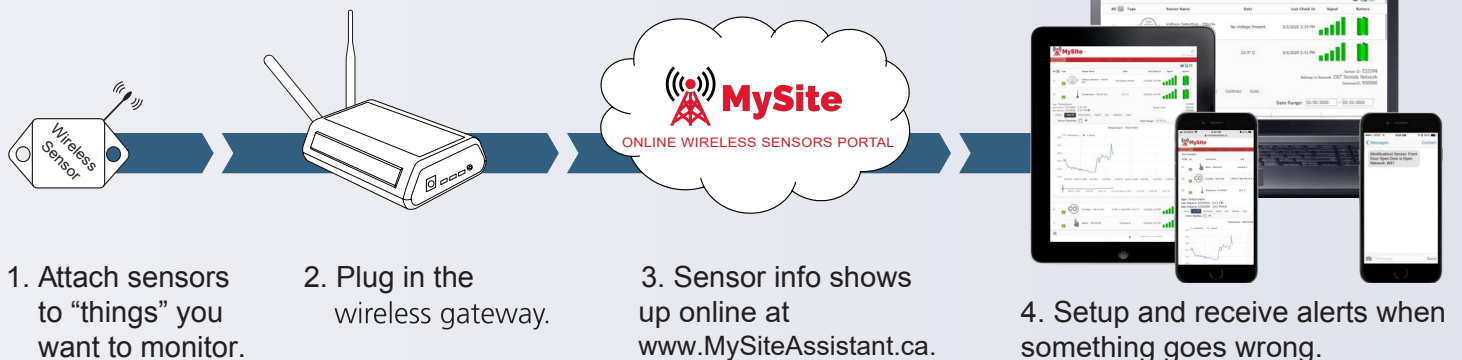

MySite offers an easy-to-use, remote monitoring solution for those who need to know instantly when a problem starts. For example, monitor; building temperatures, room humidity levels, detect water, monitor site environments, fuel tank levels, monitor doors and windows for unauthorized access. MySite provides alerts via SMS text and Email when a specified condition is met. It's easy to keep track of things, even when you're not there.

Why Use MySite Remote Monitoring Solutions?

- Easy Installation (No Wires)
- Wide Variety of Wireless Sensors for Various Applications
- Free Online Monitoring Solution (Includes SMS Text and Email Alerts)
- Save Time and Money
- Prevent Costly Damages to Hardware and Facilities
- Monitor From Anywhere Via Web and Mobile Apps

How Does It Work?

1 Wireless Gateways

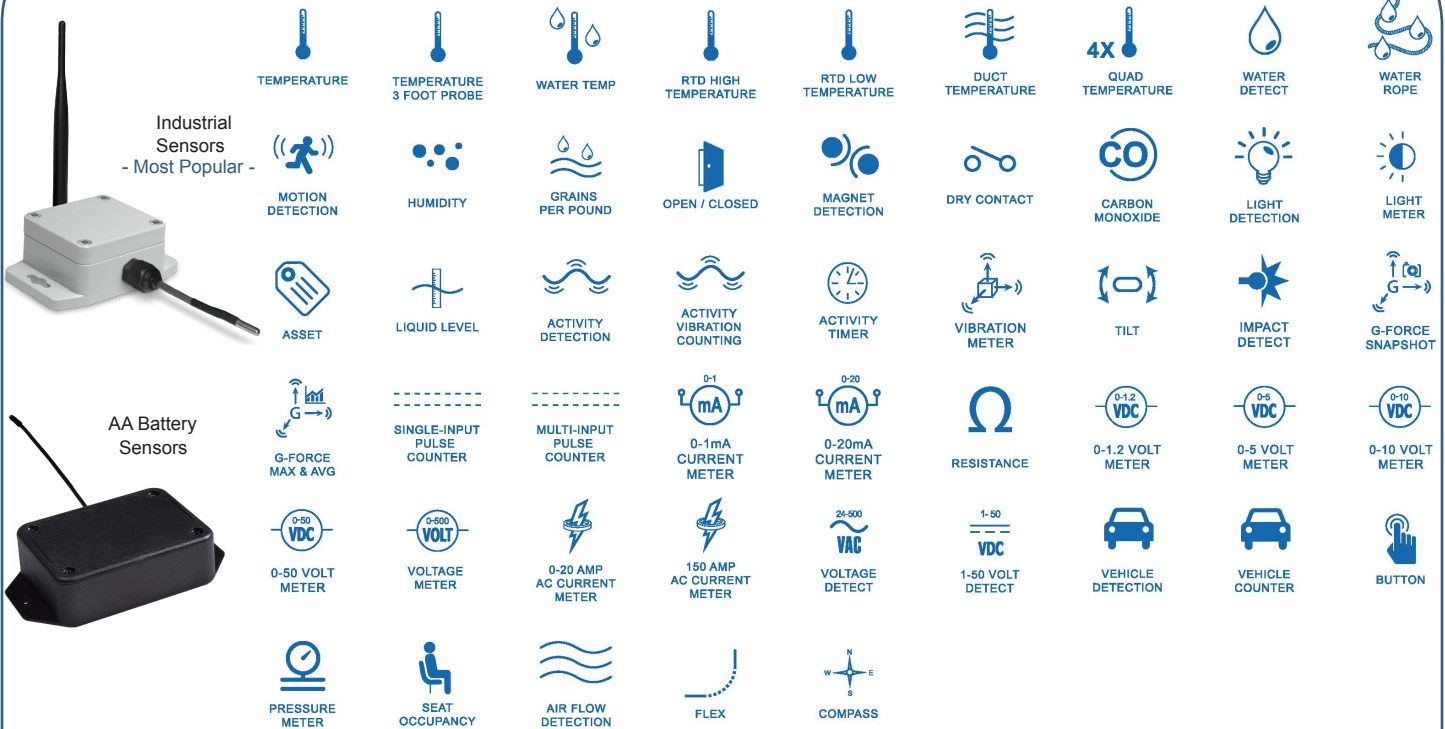

Industrial Gateway

3G & Ethernet Gateway
- Most Popular -

- Use up to 100 wireless sensors with one gateway
- Different versions available
 - Cellular Gateway (CDMA or GSM)
 - Ethernet Gateway
- Cellular gateways are available with 24 hour battery backup
- 250 - 300 ft. device range*

Wireless Sensors

- Over 50 sensor types available
- 250 - 300 ft. device range*
- Up to 10 years battery life*

3 Monitoring Software

Basic online sensor monitoring and notifications are included with all wireless sensors for free and mobile apps allow for “on-the-go” monitoring. Advanced sensor monitoring is available with MySite Premiere for a low annual cost. Visit www.MySiteAssistant.ca.

* Actual range varies depending on use.

** Battery life is affected by reporting frequency (heartbeat), sensor type, distance from gateway and other variables.
